"At Desert Whiskers Rescue, we understand that hardship doesn't just affect people—it affects their pets too. Our mission is rooted in compassion, not just for the stray, sick, or forgotten cats on the streets, but also for the individuals and families doing their best to care for them in difficult circumstances. We're here for the single parent who can't afford vet care, the senior citizen feeding a colony out of their own grocery budget, and the kind soul who finds a cat in crisis and doesn't know where to turn. We never judge—because we know that love, not income, defines a good home. Whether it's through rescue, rehoming, TNR (trap-neuter-return), or simply offering support and resources, we're committed to keeping tails wagging and hearts hopeful. At Desert Whiskers, every act of kindness matters—and every life matters."

Some rescued pets come from owners who have passed away or due to severe illness can no longer care for their pet. Other animals come from less responsible pet owners who have neglected, abused and/or abandoned their pets. Upon rescue, many of these animals are in need of medical attention, appropriate food, and socialization with people and other animals. FUPI's approach to animal rescue will be a proactive alternative to animal cruelty and abandonment."

From the expected dogs, cats, and rabbits, to pigs, chickens, and exotic animals, we serve them all. Just like a hospital, we can't save them all. What we can do, with the support of the community, is save every healthy and treatable animal who comes to us in need. Our mission is to save all healthy and treatable animals in the Las Vegas Valley. Last year we saved over 16,900 lost, homeless, and often mistreated animals."
